

# Product Bulletin

**Date:** November 5, 2025  
**Update Number:** P2025-32  
**Subject:** Security+ 3.0™ Remotes In RJO's  
**Product Affected:** Security+ 2.0® Residential Jackshaft Operators

## Overview

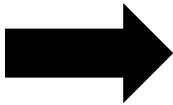

LiftMaster® is committed to delivering the latest in security and convenience for our customers. While the Security+ 3.0 upgrade for Residential Jackshaft Operators is in development, we are proactively enhancing our product offering by upgrading the included accessories.

## What's Changing

- Starting January 2026, customers will begin to receive the Security+ 3.0 MAX remote (L993M) as a standard pack-in accessory with Residential Jackshaft Operators, ensuring they are provided with the latest technology.

**Current Pack-In:**  
893MAX 3-Button Remote  
(also known as 893MAXMC)

**New Pack-In:**  
L993M 3-Button MAX Remote Control

## What's Not Changing

- Residential Jackshaft Operators will remain compatible with all Security+ 2.0 accessories.
- No changes to Residential Jackshaft Operator model numbers.

## Products Affected
